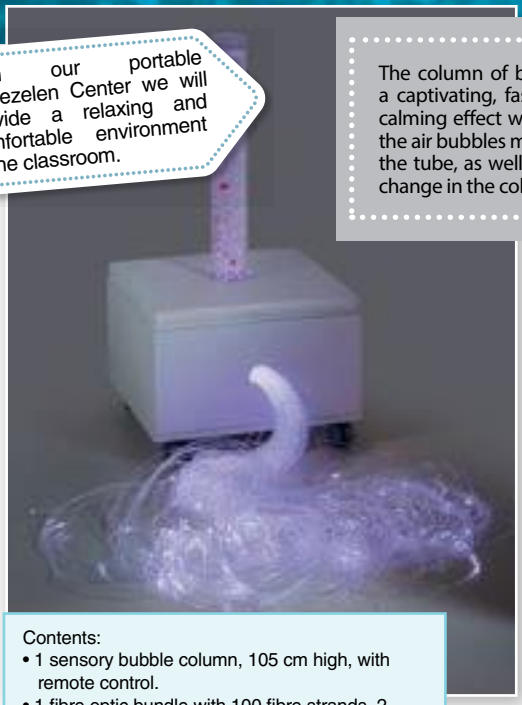
THE COMPLETE SNOEZELEN SENSORY TROLLEY FOR BABIES
Cart dimensions: height 79.3 cm x width 51 cm x depth 66.9 cm.
REF. 3.0931

With our portable Snoezelen Center we will provide a relaxing and comfortable environment in the classroom.



The column of bubbles exerts a captivating, fascinating, and calming effect when observing the air bubbles moving through the tube, as well as the subtle change in the colored light.

Fiber optics promote relaxation through play and great visual stimulation, as well as providing great tactile pleasure.

Contents:
- 1 sensory bubble column, 105 cm high, with remote control.
- 1 fibre optic bundle with 100 fibre strands, 2 metres long. Includes remote control.
- 1 storage unit with 4 castors with brakes.
- 1 white cushion made from coated fabric and 24 kg/m³ density foam. Thickness: 6 cm.

Use under adult supervision

Made with melamine panels. Beech finish and pvc edges. Methacrylate mirror 3mm thick. Reinforced corners with natural wooden triangles attached with self-tapping screws to prevent its closure or opening. Dimensions: 120 cm long (each face) x 50 cm width.

REF. 1.3363

Sensory Tunnel with Mirrors – Exploration and Psychomotor Skills for Children This square-based sensory tunnel is designed to promote exploration, movement, and psychomotor development in early childhood.

EARLY YEARS PLAY CENTRE "TUNNEL, MIRRORS AND BAR"
Cube-based tunnel, made from MDF with a beech-coloured melamine finish and rounded edges. Inside, the two side walls and the ceiling are made from 3 mm thick shatterproof acrylic mirror. Double entrance and exit holes with a rounded shape. Side panel with a balance bar to support children's development. Overall external dimensions: 80 cm x 80 cm x 80 cm. Hole dimensions: 67 cm high x 60 cm wide.

REF. 3.2944

MIRRORS AND CHILDREN

Children are drawn to mirrors for observing themselves and the world around them. Learning through play is a natural way for children to acquire new skills. Play plays a crucial role and significantly contributes to their intellectual, emotional, and physical development.

TOUR THE MIRRORS

Combination of 4 methacrylate mirrors of 3mm thickness. Together they form a round of 100cm diameter. Each piece is one fourth of the circumference.

REF. 1.4525 set of 4

+6
MONTHS

FLOOR MIRROR

A methacrylate mirror for floors. It offers a new way of seeing things from a different angle. It encourages crawling, language and expression… This new perspective will surprise little ones. Dimensions: Ø 100 cm.

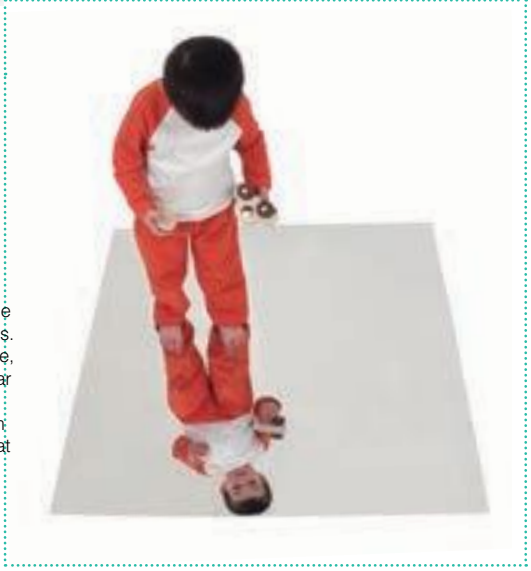
GROUND CIRCULAR MIRROR Ø 100 CM
REF. 1.3669

Because it's a plastic sheet and not glass, the image may be distorted. The image is clear at short distances. As you move further away, it loses definition.

SQUARE FLOOR MIRROR
100X100 CM

Shatterproof, child-safe mirrors made from reflective plastic sheet, not glass. They provide a good image up close, although some distortion may appear at a distance.
Dimensions: 100 x 100 cm, 3 mm thick; avoid shoes and objects that could scratch them.

REF. 1.6348



SAFETY MIRROR 100 X 50 CM

Made in mirror methacrylate, 3-mm thick and laminated on a 16 mm dm base. 2 mm pvc edges. Delivered with screws and safety caps. Dimensions: 100 x 50 cm; Thickness 11 mm.

REF. 1.2268 unit

REF. 1.2489 set of 4

Because it's a plastic sheet and not glass, the image may be distorted. The image is clear at short distances. As you move further away, it loses definition.

MONTESSORI CHILDREN'S BLEACHERS

Made from 18 mm thick birch plywood board. It has 2 levels. Waxed finish with non-toxic elements. Height of each step: 21 cm. Dimensions: 100 cm x 52 cm x 42 cm. Supplied assembled. These bleachers are made with the warmth of wood and, due to their size, are especially recommended for children aged 2 to 6 years.

REF. 1.8879 unit

School bleachers are a piece of school furniture that helps create educational environments that encourage learning, communication and socialisation among pupils.

learn, play and
move with us!

The methacrylate table allows us to explore complex perspectives when building, drawing, creating compositions and handling a wide variety of materials. The table opens up new learning possibilities and enables us to create endless new experiences.

IDEAS FOR USE:

- If we light it from underneath, it can become a light table.
- It can be used as a painting panel.
- If we place a mirror underneath, the sensory experience is enhanced.
- We can create all kinds of mini worlds and unique scenes.
- Create mandalas using a wide range of materials.

Learning through play is a natural approach that helps children acquire new skills and knowledge.

The mirror table provides us with a new learning space where children can experience new views of the world and different perspectives. It is ideal for helping children learn about reflection and mirror effects, and for closely inspecting interesting objects or themselves.

Using symmetry, children learn to arrange objects in space, to verbalise and to explain what they see.

EUROPE BEECH TABLE WITH MIRROR TOP 120 X 60 CM
6 mm thick mirror methacrylate surface, with an 18 mm plywood perimeter frame. Legs and reinforcing structure made from varnished, rounded solid beech wood. Non-toxic varnishes. Dimensions: 120 cm length, 60 cm width. Available in 7 sizes.

Mirrors are becoming essential elements in every classroom, offering us endless uses and immense educational value. They can be used on their own or combined with our light tables, mirror table and methacrylate table.
With these mirrors, we give children a world of exploration that is unknown to them, with multiple perspectives and reflections, turning them into areas for presentation, creation, experimentation, discussion and more.

BIRCH SAFETY GLASS MIRROR 120 X 60 CM
Mirror with birch wood frame and safety mirror made from 3 mm thick methacrylate. Interior mirror surface size: 100 x 50 cm

REF. 1.6625

With our new range of symbolic play equipment for the playground, children can explore while they play with all the materials they have previously used inside the classroom.

With this product range, we make every playground unique, creating large symbolic and imaginative play areas where children are the main protagonists.

Our games are handmade. The entire range is made of treated pine wood and birch, prepared to withstand outdoor weather conditions, with high resistance to water and sun. Maintenance with an outdoor oil product such as Lasur is recommended.

Natural outdoor playgrounds, outdoor learning

With our new range of playground equipment for the outdoor area, we will transform the space into a safe zone for play and experimentation. The entire collection is designed so that children can play autonomously and always be the main protagonists. The low and sturdy design makes the equipment completely safe. The collection includes ramps, cubes, walkways, tunnels, and more. Our games are handmade, and the entire range is made of treated pine wood and phenolic plywood.

A - OUTDOOR CUBE
Size: 50cm x 50cm x 50cm
REF. 1.6632

B - OUTDOOR PLATFORM
Size: 50cm x 50cm x 16 cm
REF. 1.6630

C - OUTDOOR RAMP
Size: 50cm x 50cm x 16cm
REF. 1.6631

Size: 150cm x 60cm x 22cm
REF. 1.6627

E - OUTDOOR WALKWAY WITH CIRCULAR CUT-OUTS
Size: 150cm x 60cm x 22cm
REF. 1.6628

Outdoor play helps children connect with nature through free play, creating the perfect opportunity for early years children to practise their social skills and helping them understand the environment around them.

+24 MONTHS

LUDINATURA UP-AND-DOWN PLAY TOWER
The set includes 1 small ramp, 1 walkway, and 2 steps. Its low height makes it a very safe play unit for younger children. The set is made of treated wood to withstand outdoor use and phenolic plywood. It is delivered unassembled in 3 pieces and is very easy to assemble. Size: length 100 cm x width 70 cm x platform height 30 cm + 60 cm railing.
REF. 1.9881

+5 YEARS

OUTDOOR UP-AND-DOWN LEARNING LADDER
Made of solid wood with autoclave treatment. Use under adult supervision. Dimensions of 1 ladder: length 96 cm x height 45 cm at the highest point x width 50 cm.

REF. 1.8589 unit

REF. 1.8464 2 uts

All the products on this page are made of solid wood with an autoclave finish. The autoclave treatment improves resistance to rot, insects and fungi, as well as increasing the product's durability. As these are natural wood products, some splinters and small variations may appear. Supplied unassembled.

OUTDOOR WOODEN TIERED SEATING FOR THE PLAYGROUND

3-tier seating unit with 3 benches. Made of treated wood for outdoor use, weather-resistant. FSC sustainable pressure-treated redwood for greater product longevity. Dimensions: length 180 cm x width 155,21 cm x total height 113 cm. Height of the first bench: 40,2 cm. Seat width: 40,2 cm. Maximum load weight: 250 kg per bench. Supplied unassembled.

REF. 1.8995

These benches have been conceived and designed with children and their education in mind, creating natural areas in the school and giving your playground a new lease of life. These new natural areas offer children the opportunity to socialise and interact with classmates while learning about the environment in which they play.

OUTDOOR WOODEN BENCH FOR THE PLAYGROUND

Wooden bench specially designed for children. The bench is ideal for outdoor use, as it is made of treated wood for outdoor use, resistant to weather conditions. Size: length 100 cm x width 30 cm x height 31 cm. Supplied assembled.

REF. 3.2299 unit

REF. 3.2300 set of 4

All the products on this page are made of solid wood with an autoclave finish. The autoclave treatment improves resistance to rot, insects and fungi, as well as increasing the product's durability. As these are natural wood products, some splinters and small variations may appear. Supplied unassembled.

BOLO wheels for the playground

For a safer playground, replace tyres with polypropylene wheels.

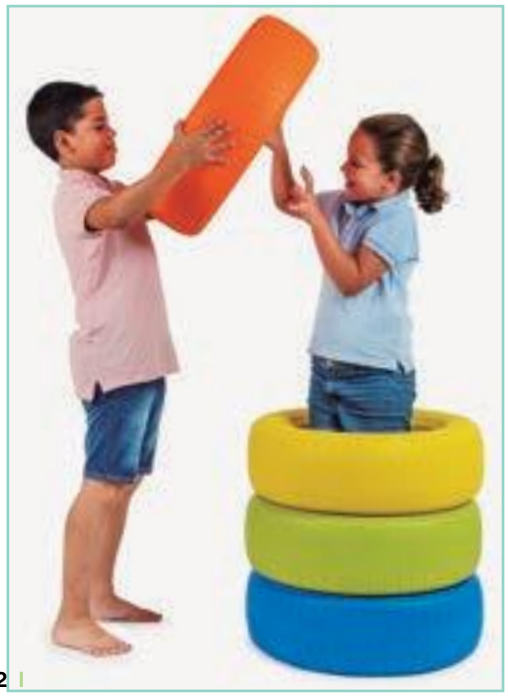
- Very lightweight!
- Very easy to handle!
- Weight: 1,4 kg

BOLO PLAY WHEELS
Children's play tyres for outdoor and indoor use, supplied in a pack of 4 units, assorted colours: 1 blue, 1 yellow, 1 orange, and 1 green. Made of high-density polypropylene, very durable and of excellent quality. Each play tyre measures 55 cm in outer diameter x 17 cm in width and 32 cm in inner diameter. They weigh only 1,4 kg, making them lightweight and easy to handle.

REF. 1.5344 pack of 4

SET OF 8 BOLO WHEELS + OUTDOOR CART
Wheeled Bolo trolley, consisting of a total of 8 wheels in four different colours: blue, yellow, tangerine and green. These wheels are very durable and measure 55 cm in outer diameter x 17 cm wide. The trolley for storing the wheels is suitable for both indoor and outdoor use thanks to its painted finish. It has 4 castors, two of which have brakes, so it can be secured in any space.

REF. 1.5814 the set



BOLO WHEEL CART
Without Bolo wheels. Dimensions: Ø 58 cm x 154 cm.

REF. 1.5813

FURNITURE

This collective table / high chair for babies is ideal for classroom use, both for feeding babies and for daily activities. It encourages babies' socialisation and visual contact with the educator and friends.

High quality:
• Compact CDF board, resistant to water and moisture. High level of hygiene. Scratch-resistant.
• U-shaped legs for proper support of the tabletop.
• Epoxy-painted steel legs.
• Ergonomic seats with rounded edges, made of high-quality polypropylene. The seats are removable and washable for excellent hygiene.
• The seats are fitted with a safety harness.
